

# CONTENTS

Contents . . . . .	5
Pharmacokinetics of Dipyrindamole- $\beta$ -Cyclodextrin Complex in Dogs. <i>G. L. Stracciari, J. Malvisi, P. Anfossi and G. B. Fregnan</i> . . . . .	7
Effects of Pantethine, Cysteamine and Pantothenic Acid on Open-Field Behavior and Brain Catecholamines in Rats. <i>L. Vécsei, E. Widerlöv and C. Alling</i> . . . . .	14
The Involvement of $\beta$ -Endorphin in Swim-Induced Antinociception in Female Mice. <i>C. L. Wong</i> . . . . .	22
Effects of YM-14673, a New TRH Analogue, on Responses to Morphine in Rodents. <i>M. Yamamoto, M. Shimizu and Y. Ozawa</i> . . . . .	29
Opposing Influences of D-1 and D-2 Dopamine Receptors Activation on Morphine-Induced Antinociception. <i>M. R. Zarrindast and E. Moghaddampour</i> . . . . .	37
AS-4370, A Novel Gastrokinetic Agent Free of Dopamine D <sub>2</sub> Receptor Antagonist Properties. <i>N. Yoshida, H. Omoya, M. Oka, K. Furukawa, T. Ito and T. Karasawa</i> . . . . .	51
$\beta$ -Adrenoceptor Agonists Do Not Reduce Hydrogen Peroxide Production from Superoxide Radicals. <i>G. R. M. M. Haenen, B. M. de Rooij, H. Timmerman and A. Bast</i> . . . . .	68
Interactions of R(+) and S(-) Isomers of Befunolol, a Partial Agonist with High and Low Affinity Sites of $\beta$ -Adrenoceptors in Guinea-Pig Taenia Caecum. <i>I. Takayanagi, K. Koike and M. Ogishima</i> . . . . .	76
Are Muscarinic Receptors Present in Rat Pial or Intracerebral Vessels? <i>M. de Michele, C. Cavallotti, L. Felici, A. Ricci and F. Amenta</i> . . . . .	85
Characterization of the Contractile and Dilatory Responses to Electrical Field Stimulation in Guinea-Pig and Monkey Isolated Pial Arteries. <i>J. E. Hardebo, J.-Y. Chang and Ch. Owman</i> . . . . .	94
Role of Endothelium in the Secondary Relaxation Following Contraction by Various Agonists in Isolated Rabbit Superior Mesenteric Artery Rings. <i>Z. S. Ercan</i> . . . . .	107
Interaction of Rilmenidine and Clonidine with Pre- and Postjunctional $\alpha$ -Adrenoceptors in Rat and Rabbit Blood Vessels and in Rat Kidneys. <i>T. J. Verbeuren, E. Koenig-Bérard, F. H. Jordaens, A.-E. Van Hoydonck, J. Verrelst, L. L. Zonnekeyn and A. G. Herman</i> . . . . .	114
L-Alphacetylmethadol (LAAM) Effects on Cardiac Muscarinic Receptors. <i>A. E. Langley</i> . . . . .	140
Study of the Negative Inotropic Action of Somatostatin. <i>F. Zonta, G. Dondi, A. Barbieri and E. Grana</i> . . . . .	149
Positive Chronotropic and Inotropic Effects of Pimobendan (UD-CG 115 BS) in Isolated, Cross-Circulated Canine Heart Preparations. <i>Y. Furukawa, K. Akahane, Y. Ogiwara, M. Haniuda and S. Chiba</i> . . . . .	159
Effects of Aprindine and Disopyramide on Reperfusion-Induced Arrhythmias and Cardiac Function in Isolated Rat Hearts. <i>S. Iwasaki, H. Araki, T. Yamakawa, K. Nishi and Y. Miyauchi</i> . . . . .	174
Cardioprotective Effect of Trimetazidine and Nifedipine in Guinea-Pig Hearts Subjected to Ischaemia. <i>J. G. Hugtenburg, T. J. W. Jap, M. J. Mathy, P. N. M. van Heiningen, V. A. Bohnen, J. B. Heijnis, H. W. G. M. Boddeke and P. A. van Zwieten</i> . . . . .	186

Effects of Guanabenz Acetate on the Pacemaker Activity of Rabbit Sinoatrial Node Cells. <i>H. Kotake, T. Kinugawa, S. Hirai, T. Matsumoto, M. Fukuki, J. Hasegawa and H. Mashiba</i> . . . . .	209
Evidence for a Direct Noncholinergic Effect of an Organophosphorous Compound on Guinea-Pig Papillary Muscles: Are Ventricular Arrhythmias Related to a $\text{Na}^+/\text{K}^+$ ATPase Inhibition? <i>A. Corbier and P. Robineau</i> . . . . .	218
Response to Atrial Natriuretic Peptide in Dogs with Acute Selective Intrahepatic Hypertension. <i>E. Maher and M. Levy</i> . . . . .	231
Cardiovascular and Lethal Effects of Cocaine in Anesthetized Dogs and Guinea-Pigs. <i>E. Seifen, L. M. Phunkett and R. H. Kennedy</i> . . . . .	241
Benzodiazepines Facilitate the Stimulatory Action of $\gamma$ -Aminobutyric Acid (GABA) on Basal and Veratridine-Evoked Catecholamine Release from Cultured Bovine Adrenal Chromaffin Cells. <i>S. Kitayama, K. Morita, T. Dohi and A. Tsujimoto</i> . . . . .	254
Studies on Contractures Induced in Mouse Diaphragm by Caffeine and Cupric and Selenite Ions. <i>S.-Y. Lin-Shiau, W.-M. Fu, S.-H. Liu and C.-T. Ni</i> . . . . .	265
Critical Evaluation of the In Vivo Selectivity between Hypotensive and Platelet Antiaggregating Actions of Iloprost and Prostacyclin in Beagle Dogs. <i>F. Hermán, P. Hadházy and K. Magyar</i> . . . . .	281
The Effect of Daunomycin on Platelets <i>In Vitro</i> . <i>J. M. Whaun and H. deC. Clarke</i> . . . . .	292
